Bangalore KA 560089

Software Engineer with a strong background in DevOps, Kubernetes, cloud platforms, Go, and Java full-stack engineering. Brings **5+ years of experience** in designing, migrating, and implementing scalable cloud solutions. Certified **AWS Solution Architect, Oracle Architect Associate, Microsoft AZ-900**, and **JLPT N4**, with hands-on expertise in DevOps practices, multi-cloud deployments, Crossplane systems, Kubernetes administration, and full-stack development. Proven ability to design efficient, secure cloud architectures aligned with business needs.

Skills

DevOps

- Cross plane v2.0
- Helm file
- Automation scripts
- Kubernetes ,Helm chart
- Jenkins , Argo CI CD
- Argo Workflows and crons
- Signoz, Grafana, signalFx
- Git Hub ,Bit bucket
- Docker , Kaninko

Cloud

- AWS EC2, IAM,VPC,S3,EKS, etc
- Azure VM,AKS,VPS,EntraID,etc
- Vulture VKE
- Terraforms
- Aws cloud formation
- Disaster Recovery

Programming

- Go lang
- Go scripting
- Java full stack
- Go scripting
- Python
- ReactJs, NodeJs
- Java Script
- PLC Programming

Experience

Senior software engineer Mar 2025 – Present

Nike (Tek systems global services)

- Airlift Development and deployment (AI Migration tool)
- CloudRed provider Development and Platform Governance
- Cross plane implementation (Network control plane)
- Cloudred migration (Nike managed account)
- Jira Scrum

Projects:

Nike (Infra engineering)

Migrated Cloud Red to a Nike-managed account by converting all microservices and dependencies into Crossplane Managed Resources (MR), collaborating with global teams for seamless integration.

Platform Engineer June 2024 – Feb 2025

Vananam Private Ltd

- Multi-cloud and Kubernetes administration
- Automating scripts using Argo templates and Python libraries
- Developed an IP whitelisting middle ware using Go lang
- Cross cluster deployments, (CI/CD) pipeline implementation
- DNS management and automation of subdomains
- Automated system backup and recovery for RPO and RTO

Projects:

The Reward Store (Product & SAAS)

Designed and built the entire infrastructure on a multi-cloud environment. Managed microservices across multiple Kubernetes clusters.

DevOps Consultant January 2024 – April 2024

Gavika information Technologies

- Architecting the cloud solution according to client requirements (AWS cloud partner)

Projects:

Alura & Liestung

Architected and deployed a **PaaS (Platform-as-a-Service)** solution for the client on **AWS** using **Terraform**.

Integration of AWS services to ensuring scalability, security.

Certificates

Amazon web services

- SAA-C03
- AWS Partner: Accreditation (Technical)
- Cloud Practitioner

Azure cloud

- AZ-900

Oracle cloud

- OCI Architect

Japanese Language

- JLPT N4
- JLPT N5

Education

Bachelor of Engineering (2021)

Sri Krishna Institute of Technology (SKIT) Bangalore

AWS Solution architect December 2022 - December 2023

Pi Square Technologies

- Designing and architecting solutions using various AWS services.
- Cloud Infrastructure Management
- JLPT N5 ,N4 ,N3 proficiency
- Disaster Recovery and High Availability

Projects:

Multi-Tier Application

Designed and implemented a multi-tier application architecture using AWS managed services. Built a CI/CD pipeline to automate deployments.

Associate Software Engineer Nov 2021 – Aug 2022

Torry Harris Business Solutions

- Collaborating with Teams development, operations, and testing teams
- Developing and maintaining automation scripts

Projects:

Oracle serial bus

Containerized the application using Docker and orchestrated deployment with Kubernetes. Designed and implemented a CI/CD pipeline to automate builds, testing, and deployment
